Orders placed after 12pm CST on a Friday, Saturday, or Sunday will be shipped out the following Monday, despite the chosen shipping method.

SleepRight Adjustable Night Guard

The SleepRight Adjustable Night Guard is not recommended without a prescription for people with disorders of the temporomandibular joint (TMJ or TMD). TMJ problems can only be diagnosed by a dentist or health professional. SleepRight Adjustable Night Guard RX is available by prescription for different intended uses that can only be diagnosed by a health professional.

Indications: SleepRight Adjustable Night Guard protects teeth and dental work from clenching and grinding.

Caution: Do not use if you are under 18 years of age; have TMJ; have teeth or jaw pain; or if the night guard is broken or damaged. Do not use the product as an athletic mouth guard. Do not use the product for more than 12 hours in a 24 hour period or for more than three months without consulting your dentist. Ask a dentist before use if you have loose fillings, loose caps, or unfilled cavities; jaw clicking or pain, teeth pain, face pain; difficulty chewing; mouth sores; gum disease or bleeding gums; or serious respiratory problems. While using the product, see your dentist at least every six months. Stop use and see a dentist if you experience pain or other irregularity; the product easily falls out of your mouth or causes you to gag; you develop bleeding gums, soreness, or other reaction inside your mouth; or you develop loose teeth or a change in your bite.
